Tools: Salesforce, Siebel, CRM/account systems, Microsoft 365, Google Workspace	Operations: Knowledge documentation, call-flow improvement, QA, coaching, onboarding

PROFESSIONAL EXPERIENCE

AT&T; | Senior Technical Support & Peer Support

2015-Present

- Provide advanced technical and account support, diagnosing mobile-device, application, connectivity, service, billing, and account-access issues.
- Earned Android Master certification and served in the MI60 peer-escalation role, assisting representatives with complex cases and helping customers avoid repeat contacts.
- Identified an RSA registration and Windows registry failure affecting remote access; documented the cause and rewrote the access and token recovery procedures.
- Supported teams across Texas, Louisiana, Florida, and Mississippi while coaching representatives on troubleshooting, CRM use, customer communication, and resolution quality.
- Use active listening and de-escalation to manage high-pressure interactions and move each case toward a practical resolution.

DIRECTV | Lead Technical Mentor

2009-2014

- Resolved receiver, remote-control, signal, connectivity, installation, and account problems through structured remote troubleshooting.
- Maintained approximately a 0.3% unnecessary truck-roll rate by isolating problems and completing remote fixes whenever possible.
- Coached new and tenured representatives, helping them reach required quality and performance standards within four weeks.

CROSS COMPUTER REPAIR | Computer Service Technician

2005-2008

- Diagnosed, repaired, configured, and upgraded Windows computers, hardware, operating systems, drivers, software, peripherals, and small-network connections.

GATEWAY | Technical Support Specialist & Sales Trainer

2001-2005

- Delivered phone support for desktop and laptop hardware, Windows, software, peripherals, internet connectivity, and system performance issues.
- Achieved the call center's highest sales close rate at 46% and was promoted to trainer.
